- ▶ Survey & consultation service
- ▶ Drawing & space planning service
- ▶ Bespoke design
- ▶ Extensive range of finishes
- ▶ CNC Technology
- ▶ Installation service & ongoing support
- ▶ Legally sourced and sustainable timber

Witley Jones Furniture design, manufacture and install high quality bespoke school furniture.

We manufacture to order to meet your requirements, expectations and budget. Be it material type, finish, specific colours, shapes or dimensions, we help create furniture specific to your requirements.

Our in-house team works closely with you, your contractors and consultants, providing a total service from start to finish, beginning with a free consultation and design service.

Upon agreeing the final design of a project, we work with you to select materials and produce a schedule in conjunction with the overall project plan.

All school furniture is manufactured and assembled in our state of the art factories by experienced skilled staff. We have a dedicated installation team that deliver and fit all pieces of furniture onsite alongside our senior management team, who oversee the completion of every project.

Boarding & Accommodation

We design, manufacture and install bespoke accommodation furniture tailored to specific requirements.

It is essential that accommodation furniture provides both optimum space utilisation and comfort; we help you to achieve this through our flexible and unique design process.

Bedroom furniture can be crafted in a range of materials and finishes. We manufacture beds, desks, wardrobes, shelving and other storage items.

Additional items such as integrated electrics and lighting, digital safes, mattresses, noticeboards and other hardware upgrades can be added to compliment your accommodation furniture.

“ Witley Jones recently manufactured and installed over 65 bed spaces for Ward’s Boarding House here at Wycliffe. We are delighted with the final outcome and the level of aftercare Witley Jones offer and wouldn’t hesitate to recommend them for future projects. ”

Classroom Furniture

In ever-evolving learning environments within schools, our furniture is designed to create an enjoyable and productive learning space for all ages. We work closely with your staff members to help turn their ideas into desks, chairs and storage that fits within your classroom.

Bespoke classroom furniture helps to facilitate a collaborative learning environment using bright colours and a variety of desk shapes, allowing you to change a classroom's layout to suit different teaching approaches.

Storage can be designed to integrate classroom technology (including interactive whiteboards), creating discrete housing which maximises both teaching and space.

Teaching Walls

A complete storage, IT and teaching solution for your classrooms, teaching walls are suitable for all subject areas including IT suites, science laboratories, food technology rooms and music departments.

We work with you to help maximise the available space and seamlessly integrate a whiteboard and interactive screen, offering additional storage through bookcases, cupboards and drawers to suit a rooms specific dimensions.

We understand that space is at a premium and a storage or teaching wall can be the ideal way to maximise space and reduce encroachment into classrooms and corridors.

Science Laboratory

Whether a multi-use laboratory or for specific scientific disciplines, your furniture will be designed to withstand daily use over a long period of time.

We ensure work tops, tables, chairs and stools (as well as the overall finishing height) are right for you and, as well as being suitable for the environment, take into consideration the intelligent use of space.

We supply laboratory-specific hardware such as water taps, gas taps, electrical pedestal boxes and sinks and work with you to decide the best approach for you.

“ The work last summer has taken the school forward significantly and we are very proud of the new facilities which place us at the cutting edge in education... I am more than happy to strongly recommend Witley Jones to others. ”

Business Manager at Swanbourne House

“ We have worked with Witley Jones for 10 years on all manner of projects from study bedrooms to staff rooms. We handed over the first phase on the Science Block extension last summer and the product is very good indeed. ”

Art & Design

Tailoring furniture for its intended use is essential for your Art, DT or Food Technology room. Ensuring the correct materials are used to support tooling and other hardware is always taken into consideration, as well as the overall finish heights. So be it a bandsaw, pillar drill or reprographics equipment, we help make sure the comfort of students and staff is carefully considered.

Materials, sizes, colours and finishes are key elements to consider when working with you during the design process, in order to manufacture the furniture to meet your exacting requirements.

We are able to offer a wide range of worktops to suit specific subjects, including solid grade laminates, solid surfacing, hardwoods, food-safe stainless steel and high pressure laminates.

“ Witley Jones’ attention to detail is exemplary, with the same level of detail going into each project, regardless of size.

We are delighted that the furniture manufactured by Witley Jones was designed to perfectly meet our expectations and finite requirements, resulting in a truly bespoke final product. ”

Bursar at Prior’s Field School

“ It was a very positive experience working alongside Witley Jones, who provided clear and frequent communication throughout the project. They are a professional organisation that always delivered on time. Witley Jones were a pleasure to work with. ”

Lockers & Changing Rooms

We help you create lockers for a variety of disciplines, from classroom storage and musical instrument storage, to wet areas and changing rooms. Optimising space and ensuring we provide students with enough storage is important, ensuring we maximise floor space in busy areas of your school.

Hardware is equally important from a practical point of view. You may wish to include coat hooks, venting, digital locks, combination locks, standard lock and key housings or simply a staple and hasp fitting.

Choosing the right material for each area of your school is imperative, such as using a solid grade laminate for wet areas. We can help to incorporate school colours or other finishes that are in keeping with the surroundings, to suit all tastes and age ranges.

Dining Furniture

We design and manufacture an extensive range of furniture for school dining rooms, cafes and catering spaces.

It is important that furniture designed for these busy environments efficiently uses the space available when in operation or being stored.

We are able to offer a large variety of flexible dining furniture including folding and stacking chairs, as well as moveable and folding tables.

Our manufacturing capabilities allow us to offer solutions to cater for a large range of dining hall styles from very traditional hardwood bench and table sets to modern and colourful laminate table and chair options.

Seating & Soft Furnishings

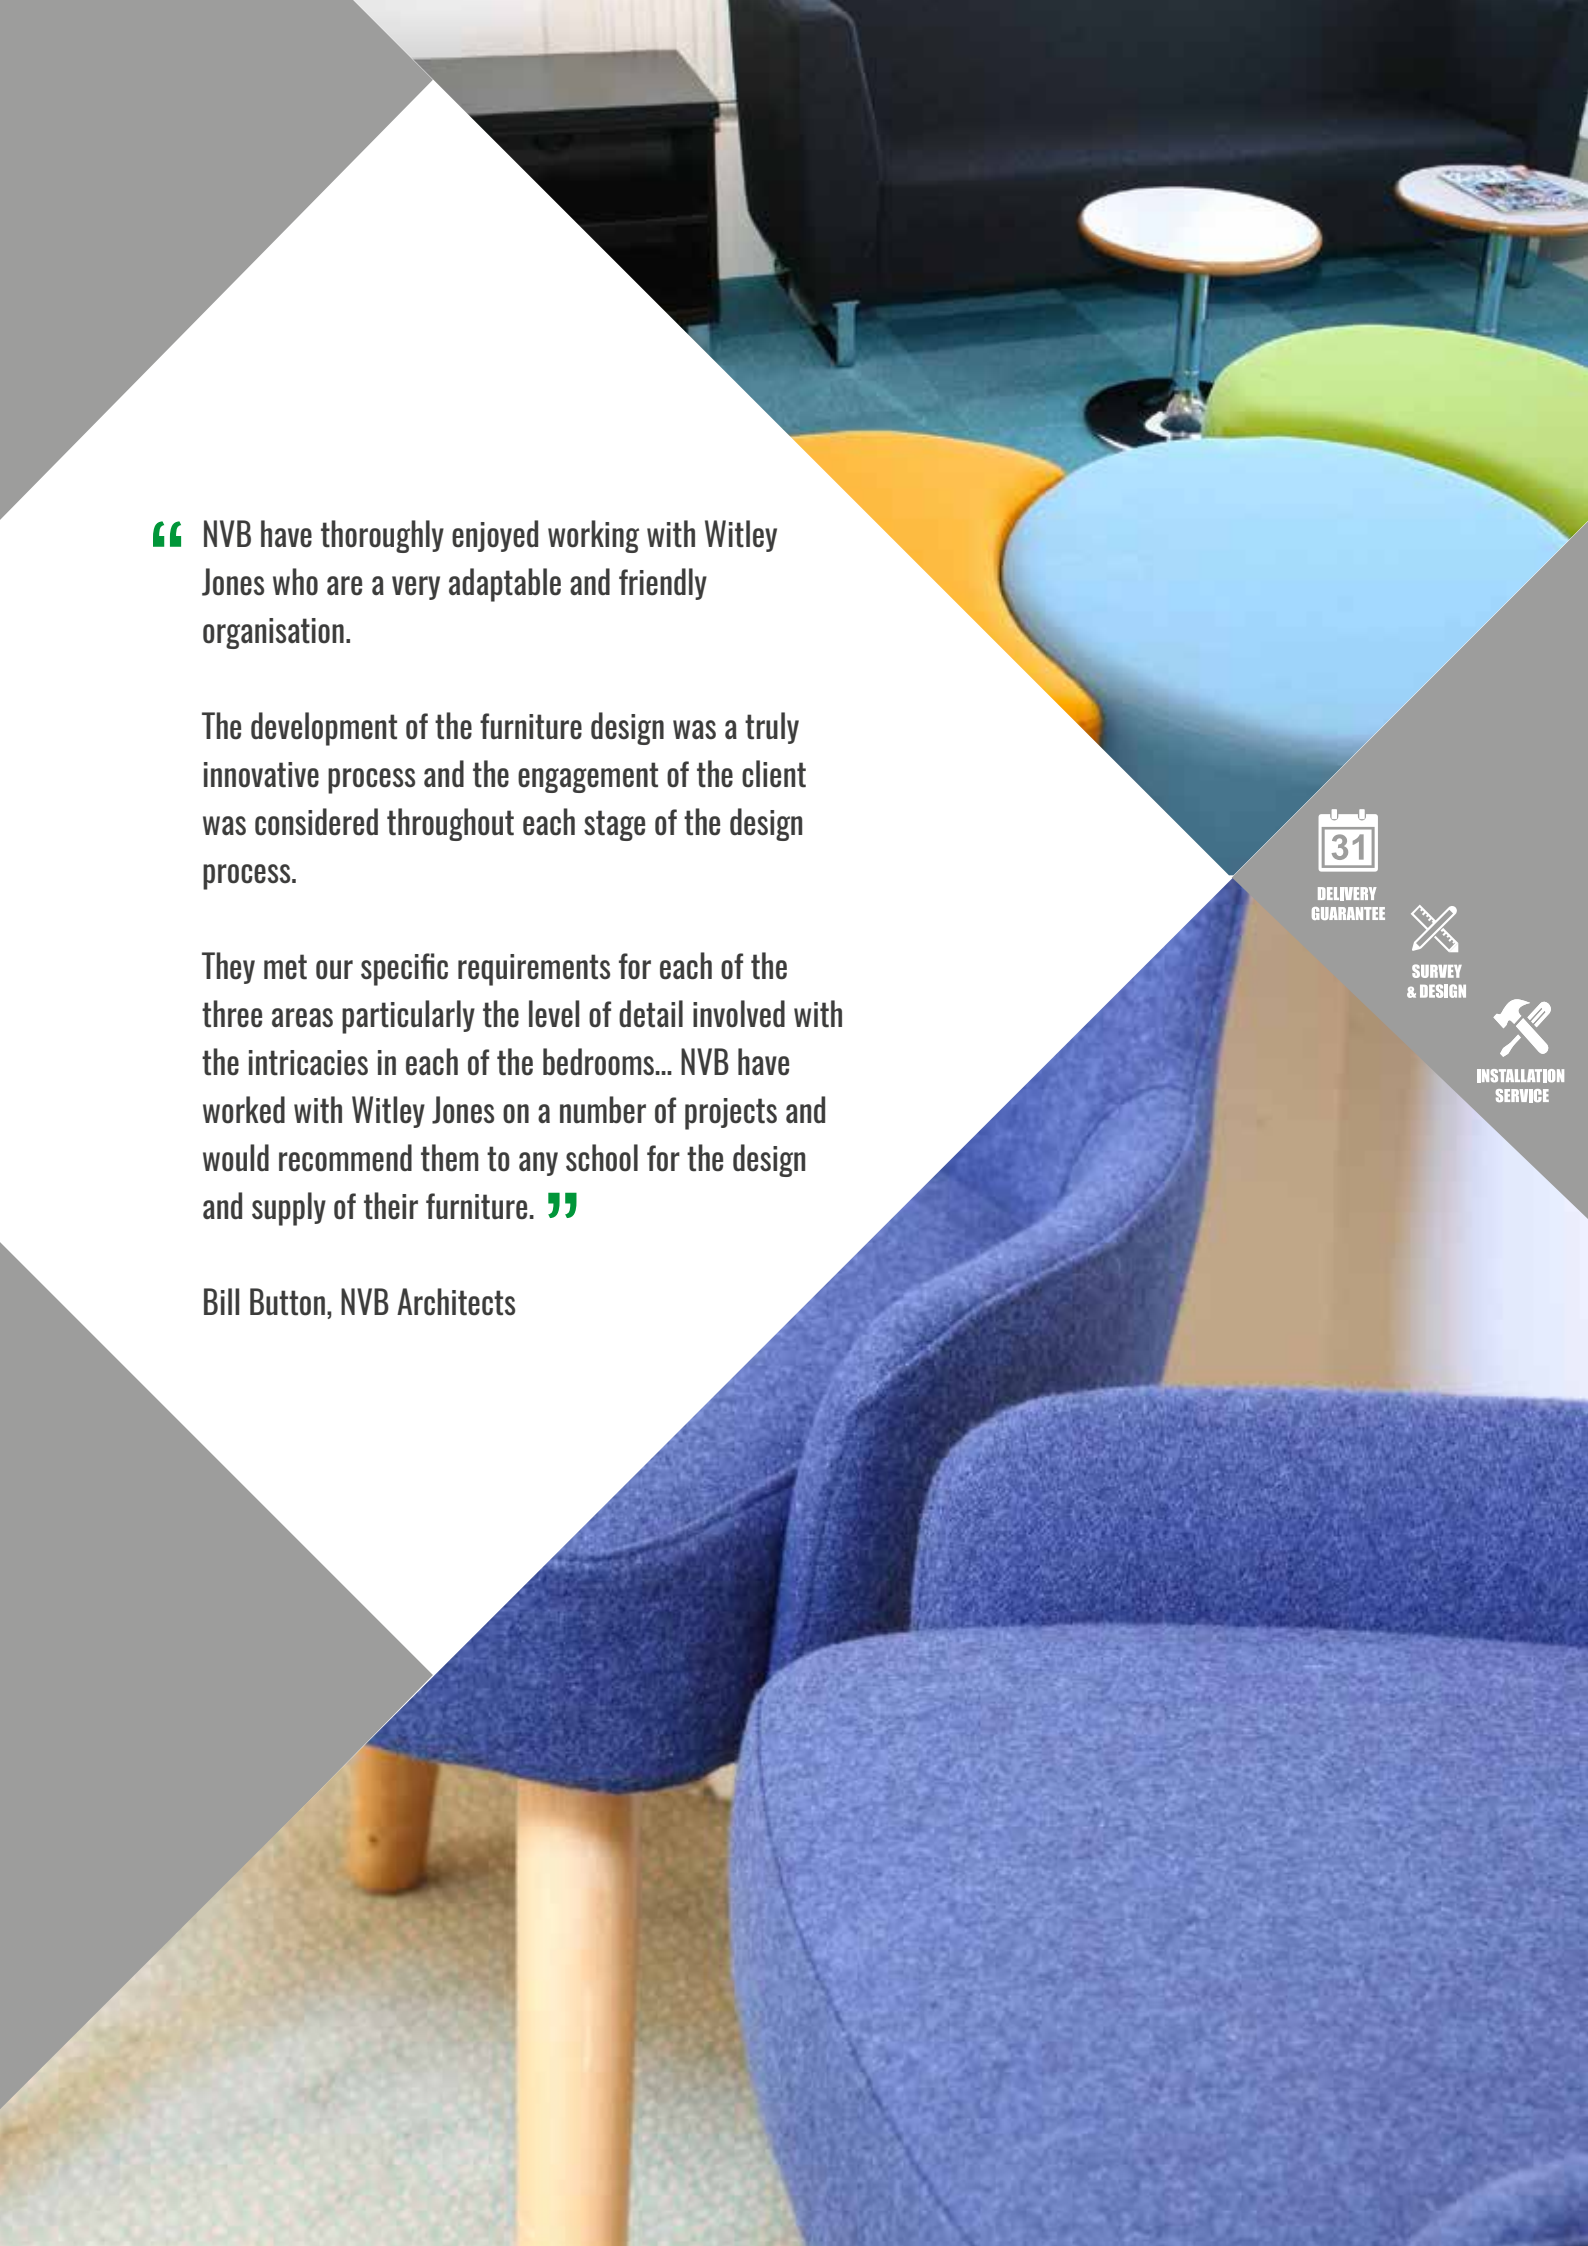

We offer an extensive range of seating and soft furnishings for all areas of the school including classrooms, boarding houses and breakout areas.

The design process is led by your specific requirements from style to material choice, meaning we are able to offer a variety of bespoke and modular solutions to suit your budget and requirements.

Rest easy, safe in the knowledge that all our soft seating has been designed specifically for use in school environments and will stand the test of time.

All fabrics offered will meet BS7176 CRIB 5 Medium Hazard Usage to ensure that your new seating will be in line with current fire regulations.

“ NVB have thoroughly enjoyed working with Witley Jones who are a very adaptable and friendly organisation.

The development of the furniture design was a truly innovative process and the engagement of the client was considered throughout each stage of the design process.

They met our specific requirements for each of the three areas particularly the level of detail involved with the intricacies in each of the bedrooms... NVB have worked with Witley Jones on a number of projects and would recommend them to any school for the design and supply of their furniture. ”

ICT

Bespoke ICT furniture maximises the available space whilst providing discreet storage for computers and equipment.

We design and manufacture integrated storage and workbenches to ensure the ICT suite gives enough of a work area for students and the room is safe and free from clutter.

The furniture can include cable management ports, cable trays and accessible service voids to safely conceal wiring and assist with ongoing maintenance.

Library

We provide completely unique library furniture design, production and installation including wall-mounted, freestanding or back-to-back units.

Our bespoke design expertise ensures that library furniture can be tailored to utilise awkward spaces in a number of quality finishes and colours.

Curved bookcases, librarian desks and soft seating can be a good way to break the more traditional linear approach.

Bespoke & Special Items

With over 35 years of experience, we have an enviable wealth of knowledge in manufacturing for the education sector. This expertise has evolved to embrace all facets of learning, storage and beyond.

We quite often get tasked with finding a solution to something fairly unique and our skilled technicians are here to assist with your requests. From reception counters, to chapel pews, to aquarium frontages, to converting double decker buses, we work with you to ensure we deliver a product and service you are happy with.

A complete solution, from budget to architect / contract specification.
